Miracle

Two blocks over is someone
Who's never been in your life
The greatest friend or lover
Sitting to your right
So touch the very mountaintops
Brush the very deepest valleys
Still you can't even come close
To everything that could be

I can't believe it
What a surprise
What you can walk by
I can't believe it
What I didn't see
It's just such a miracle to me

Just a couple of seconds
Can decide where you go
Turn around to face one thing
And what's behind you'll never know
So shout your questions to the wind
See if any of them make it
All these little mysteries
That you can't forget

I can't believe it
What a surprise
What you can walk by
I can't believe it
What I didn't see
It's just such a miracle to me
